*Deliver Results - Create Value*

## Program Overview

In this three-day intensive course participants develop the competence to master a model for implementing risk management processes throughout their organization using the ISO 31000:2009 standard as a reference framework. Based on practical exercises, participants acquire the necessary knowledge and skills to perform an optimal risk assessment and manage risks in time by being familiar with their life cycle. During this training, we will present the ISO 31000 general risk management standard, the process model it recommends, and how companies may use the standard. This training is also fully compatible with ISO/IEC 31010 which supports ISO 31000 by providing guidance for risk assessment.

## Duration

3- Day Program

## Learning Objectives

At the end of this training, participants will be able to:

- To understand the concepts, approaches, methods, tools and techniques allowing an effective risk management according to ISO 31000 and ISO/IEC 31010
