

**ISO/IEC 27004:2009- Information Security
Management Systems- Measurement**
Course Outline

Program Overview

This 1-day program introduces the basic concepts on the development and use of measures and measurement in order to assess the effectiveness of an implemented ISMS and controls or groups of controls, as specified in ISO/IEC 27001. Understanding the ideas of this program provides the participant an overview of what does it mean to have an effective Information Security Management Program based on the guidelines specified in ISO 27004:2009, which encourages the organization to provide reliable information to relevant stakeholders concerning its information security risks and the status of the implemented ISMS to manage these risks.

Duration

1- Day Program
