Deliver Results - Create Value

BUILDING WORKPLACE SYNERGY

Training Course Outline

Program Overview

In today's ultra-competitive global market, where start up companies aim to disrupt existing markets and create new ones to exploit, there is a viable, palpable need for organizations to find new strategies to stay ahead of their competition. One such approach calls for the optimization of one or more enterprise's workforce in such a way that they can work together to produce an effect greater than the sum of their individual components. This is what is known as synergy, and when properly executed within an organization has the potential to result in improved productivity, reduced cost, increased revenue, higher morale and empowerment, improved competitive advantage, and expanded market share.

This course will aim to introduce its participants to the concept and benefits of adopting a culture built around synergy and leverage this to achieve quantifiable results for their respective companies. In a world where every organization's objectives revolve around the fulfillment of its stakeholders needs and achievement of its strategic goals, incorporating a culture that upholds and promotes synergy within the workplace can go a long way in accomplishing these goals.

Duration

Half Day Training
